Task-1: Employee Reward Program

The management wants to launch a special reward program for employees who consistently perform well and maintain excellent discipline.

Create a new column named **Reward Status**.

An employee should be marked as **"Reward Eligible"** if:

- Attendance is 95% or above and Rating is 5
- OR Salary is more than ₹60,000 and Experience is 6 years or more
- OR Sales amount exceeds ₹300,000

If none of the above conditions are met, display **"Not Eligible"**.

Task-2: Leadership Development Program

The company is selecting employees for an advanced leadership training program.

Create a new column named **Leadership Program Status**.

An employee should be marked **"Selected"** if:

- Experience is 5 years or more AND Rating is at least 4
- AND Attendance is above 90%

Otherwise display **"Not Selected"**.

Task-3: Special Healthcare Benefits

The HR department wants to identify employees who qualify for premium healthcare benefits.

Create a new column named **Healthcare Benefit Status**.

An employee qualifies if:

- Experience is more than 7 years
- OR Salary is greater than ₹70,000
- OR Attendance is 98% or above and Rating is 5

Display:

- **"Premium Benefits"**
 - **"Standard Benefits"**
-

Task-4: High-Performing Sales Team Analysis

The Sales Director wants to know how many employees satisfy all the following conditions simultaneously:

- Department = Sales
- Sales Amount greater than ₹250,000
- Rating = 5

Calculate the total count.

Task-5: Revenue Contribution Analysis

The management wants to calculate the total sales generated by employees who:

- Belong to the Sales Department
- Have Attendance of at least 95%
- Have Rating of 4 or above

Calculate the total sales amount.

Task-6: Department Salary Review

Part A – Average Salary

Calculate the average salary of employees working in the IT Department who have at least 5 years of experience.

Part B – Highest Salary

Find the highest salary paid to an employee in the Finance Department.

Task-7: Employee Information Retrieval

The management receives Employee ID **E208** and wants to retrieve the following details:

- Employee Name
- Department
- City
- Experience
- Rating
- Salary

Use an appropriate lookup function.

Task-8: Promotion Priority List

Create a new column named **Promotion Priority**.

An employee should be marked as "**High Priority**" if:

- Experience is 8 years or more
- OR Rating is 5 and Attendance is above 97%

Otherwise display "**Normal Priority**".

Task-9: Department Strength Report

The HR Department wants to know:

- Total number of employees in Sales
- Total number of employees in HR
- Total number of employees in IT
- Total number of employees in Finance

Generate the report using formulas.

Task-10: Salary Band Classification

Create a new column named **Salary Band**.

Classify employees according to the following rules:

- Salary above ₹70,000 → Executive Band
- Salary between ₹50,000 and ₹70,000 → Management Band
- Salary between ₹35,000 and ₹49,999 → Staff Band
- Salary below ₹35,000 → Junior Band

Display the appropriate band for each employee.
